AIR CASES

■ UP TO 40% LIGHTER

From our proprietary blend of super-light next gen HPX2™ resin, the Peli Air collection is unique in that it is less rigid, allowing the case to flex and bend without breaking and to be up to 40% lighter than other polymer cases.

■ PRESS & PULL LATCHES

These smooth-opening, patented latches hold tight under pressure and impact with easy-opening performance. Tested to over 180 kg (400lbs.), yet open with a simple release button.

■ WATERTIGHT O-RING GASKET

The secret is the tongue and groove fit with a polymer o-ring which creates a watertight seal that gives each case its IP67 waterproof rating. Made from neoprene, these gaskets fit securely into a groove in the case lid, ensuring a tight seal when latched.

■ STAINLESS STEEL HASP PROTECTORS

Stainless steel hasp protectors for added strength and secure padlock compatibility, ensuring extra durability.

■ CARD HOLDER

Removable polycarbonate card holder, with front or side placement.

■ AUTOMATIC PURGE VALVE

Keeps water and dust out while balancing air pressure.

ONE SIZE DOESN'T FIT ALL

Peli understands that finding the right protection, with the perfect fit for your gear, is a priority. Peli Air began with long protection and quickly grew to offer you deep protection.
